

CUMULATIVE SUBJECT INDEX

VOLUME 7

*Indicates original article

**Indicates editorial

ACANTHROCYTOSIS

- acanthrocytosis, a genetic erythrocytic malformation, 195

ACCIDENTS

- accident prevention and the general practitioner, 169

ACRODYNIA

- mercury and pink disease, 205
- mercury poisoning as a cause of acrodynia, 206
- subacute mercury poisoning (acrodynia) caused by protiodide of mercury, 205

ACTH

- corticotropin (ACTH) and cortisone in idiopathic thrombocytopenic purpura, 197
- effect of cortisone and ACTH in leukemia, 193
- effects of cortisone and adrenocorticotrophic hormone on poliomyelitis and other virus infections, 151
- human adrenal cortex after administration of ACTH and cortisone, morphologic changes, 47
- resistance to corticotropin, cortisone and folic acid antagonists in leukemia, 161
- use of adrenocorticotrophic hormone and cortisone in the treatment of leukemia and leukosarcoma, 87

ADOLESCENCE—See Puberty.

ADRENAL GLANDS

cortex:

- human adrenal cortex after administration of ACTH and cortisone, morphologic changes, 47

ADRENOCORTICOTROPIC HORMONE—See ACTH.

ALLERGY

- cow's milk allergy in infants, 52

AMINO ACIDS

- amino-aciduria and copper metabolism in hepatolenticular degeneration, 155

ANEMIA

- aplasia of the bone marrow, a new cause of the von Jaksch syndrome, 195

aplastic:

- fatal aplastic anemia in children following chloramphenicol (Chloromycetin) therapy, 188
- idiopathic aplastic anemia in children, its early differentiation from aleukemic leukemia by bone marrow aspiration, 40

Cooley's:

- Cooley's erythroblastic anemia, 89

hemolytic:

- acute hemolytic anemia due to ingestion of naphthalene moth balls, 88
- in vitro* erythrophagocytosis in acquired hemolytic anemia, 194
- latent hemolytic syndrome in leukemia with splenomegaly, 167
- photosensitive or congenital porphyria

with hemolytic anemia, clinical and fundamental studies before and after splenectomy, 42

hypochromic:

- significance of copper in the treatment of iron-refractory hypochromic anemia, 197

Mediterranean:

- genetic study of Mediterranean anemia in Cyprus, 90

megaloblastic:

- red blood cell diameters in megaloblastic anemia in children needing continuous treatment, 165

sickle-cell:

- acute erythroblastopenia in sickle-cell anemia and infectious mononucleosis, 164
- new inherited abnormality of hemoglobin and its interaction with sickle-cell hemoglobin, 166
- ratio of sickle-cell anemia hemoglobin to normal hemoglobin in sickleemics, 92

ANNOUNCEMENT

- Nobel prize awarded to Selman A. Waksman, 236

ANTIBIOTICS

- study on etiology, epidemiology and antibiotic therapy of infantile diarrhea with particular reference to certain serotypes of *Escherichia coli*, 98

APNEA NEONATORUM

- effect of apnea neonatorum on intellectual development, 147

ARTERIOSCLEROSIS

- arteriosclerosis in infancy, 43

ASPHYXIA

- lower nephron nephrosis in asphyxia neonatorum, 61

ASTHMA

- irradiation of the nasopharynx in children with infectious asthma, 231

ATABRINE

- treatment of *T. saginata* and *H. nana* infestations with atabrine, 48

AUREOMYCIN

- aureomycin in the treatment of beta hemolytic streptococcal infections, 202

BARBITURATES

- skin eruptions caused by barbiturates, 204

BCG

- case of otitis media tuberculosa after oral administration of BCG, 229

BEHAVIOR

- cerebral palsy and the embryology of infant behavior, 85*

BERNHOLM DISEASE—See Pleurodynia.

BILE DUCTS

intrahepatic:

- atresia of the intrahepatic bile ducts, 110

BIRTHS

multiple:

- recent statistics of multiple births in

APNEA NEONATORUM

- effect of apnea neonatorum on intellectual development, 147

ARTERIOSCLEROSIS

- arteriosclerosis in infancy, 43

ASPHYXIA

- lower nephron nephrosis in asphyxia neonatorum, 61

ASTHMA

- irradiation of the nasopharynx in children with infectious asthma, 231

ATABRINE

- treatment of *T. saginata* and *H. nana* infestations with atabrine, 48

AUREOMYCIN

- aureomycin in the treatment of beta hemolytic streptococcal infections, 202

BARBITURATES

- skin eruptions caused by barbiturates, 204

BCG

- case of otitis media tuberculosa after oral administration of BCG, 229

BEHAVIOR

- cerebral palsy and the embryology of infant behavior, 85*

BERNHOLM DISEASE—See Pleurodynia.

BILE DUCTS

intrahepatic:

- atresia of the intrahepatic bile ducts, 110

BIRTHS

multiple:

- recent statistics of multiple births in

- England and Wales, 168
- BLOOD**
 cells—See *Erythrocytes*.
- BLOOD PRESSURE**
 —observations on blood pressure in children following an acute glomerulonephritis, 202
- BONE MARROW**
 —aplasia of the bone marrow, a new cause of the von Jaksch syndrome, 195
aspiration:
 —idiopathic aplastic anemia in children, its early differentiation from aleukemic leukemia by bone marrow aspiration, 40
- BONES**
 —nonendocrine deviations from the normal pattern of osseous development, 60
- BOOK REVIEWS**
 —Acta oto-laryngologica Supplement 89. The audiology clinic. A manual for planning a clinic for the rehabilitation of the acoustically handicapped, 118.
 —Brain tumors of childhood, 177
 —Congenital dysplasia of the hip joint and sequelae in the newborn and early postnatal life, 238
 —"Curare and anti-curare agents," 177
 —Disease in infancy and childhood, 62
 —Electrocardiographic studies in normal infants and children, 237
 —Hemolysis and related phenomena, 117
 —How to help your child develop successfully, 238
 —Methodology and techniques for the study of animal societies, 62
 —Motion pictures on child life, a list of 16 mm. films, 177
 —Nutrition and chemical growth in childhood. Volume III. Calculated data, 119
 —Pedigrees of Negro families, 117
 —Physiology and pathology of exposure to stress, 178
 —Physiology in disease of the heart and lungs, 62
 —Pictures of children living and learning, 119
 —Retarded child (The). A guide for parents and teachers, 177
 —Somatic development of adolescent boys, 178
 —World population problems and birth control, 237
 —Your deaf child, 118
- BOYS**
 —physical changes associated with adolescence in boys, 51
- BRAIN**
 —intracranial complications of congenital dermal sinuses, 233
cortex:
 —ablation of abnormal cortex in cerebral palsy, 74*
- BRUCELLOSIS**
 —diagnostic criteria for human brucellosis, 216
- CANICOLA FEVER**
 —fatal canicola fever with autopsy findings, 218
- CARBOHYDRATES**
 —infant feeding with and without added carbohydrate, 99
- CEREBRAL PALSY**
 —cerebral palsy and the embryology of infant behavior, 85*
 —cerebral palsy problem in 1951, 3*
 —introduction to Symposium, 1**
 —kernicterus, clinical residuals and prevention, 76*
treatment:
 —ablation of abnormal cortex in cerebral palsy, 74*
 —cerebral palsy nursery schools, 27*
 —physiology of motor learning as applied to the treatment of the cerebral palsied, 5*
 —role of the convalescent institution, 34*
 —treatment of cerebral palsy in England and Europe, 25*
- CEREBROSPINAL FLUID**
 —studies of the cerebrospinal fluid circulation in tuberculous meningitis in children, the use of penicillin as a tracer substance, 56
- CHLORAMPHENICOL**
 —chloramphenicol in the treatment of meningococcal meningitis, 44
 —fatal aplastic anemia in children following chloramphenicol (Chloromycetin) therapy, 188
 —septicemia due to *Salmonella typhimurium*, a second epidemic, effect of Chloromycetin, 225
 —treatment of typhoid fever, combined therapy with cortisone and chloramphenicol, 55
 —use of Chloromycetin Palmitate in infants and children, 145
- CHLOROMYCETIN**—See *Chloramphenicol*.
- CITRATE**
 —vitamin D and citrate metabolism, studies on rachitic infants, 215
- CONVALESCENTS**
 —role of the convalescent institution [for cerebral palsy patients], 34*
- COPPER**
 —amino-aciduria and copper metabolism in hepatolenticular degeneration, 155
 —significance of copper in the treatment of iron-refractory hypochromic anemia, 197
- CORONARY ARTERIES**
 —left coronary artery from the pulmonary artery, three cases, one with cardiac tamponade, 174
- CORTICOTROPIN**—See *ACTH*.
- CORTISONE**
 —Corticotropin (ACTH) and cortisone in idiopathic thrombocytopenic purpura, 197
 —effect of cortisone and ACTH in leukemia, 193
 —effect of cortisone in streptococcal lymphadenitis and pneumonia, 171

- effects of cortisone and adrenocorticotrophic hormone on poliomyelitis and other virus infections, 151
- human adrenal cortex after administration of ACTH and cortisone, morphologic changes, 47
- resistance to corticotropin, cortisone and folic acid antagonists in leukemia, 161
- treatment of typhoid fever, combined therapy with cortisone and chloramphenicol, 55
- use of adrenocorticotrophic hormone and cortisone in the treatment of leukemia and leukosarcoma, 87
- COXSACKIE VIRUSES**
 - studies of Coxsackie viruses, observations on epidemiological aspects, of Group A viruses, 169
 - studies on poliomyelitis in Ontario, further observations on the recovery of Coxsackie viruses from cases of clinical poliomyelitis, 102
 - vesicular pharyngitis, its relationship to the Coxsackie group of viruses, 170
- DIARRHEA**
 - epidemic:*
 - Bact. coli* in infantile diarrhea, 213
 - epidemic infantile diarrhea associated with *Escherichia coli* 111, B₄, 147
 - epidemic infantile diarrhea and vomiting, 95
 - experiments on feeding adult volunteers with *Escherichia coli* 111, B₄, a coliform organism associated with infant diarrhea, 212
 - on the occurrence of *Escherichia coli* 55: B₅:6 and *E. coli* 111: B₄ in fecal samples from infants with diarrhea disease and in a control material, 213
 - study on etiology, epidemiology and antibiotic therapy of infantile diarrhea, with particular reference to certain serotypes of *Escherichia coli*, 98
- DIASTEMATOMYELIA**
 - diastematomyelia, 63*
- DIHYDROSTREPTOMYCIN**—See *Streptomycin*.
- DWARFISM**
 - congenital idiocy, sexual infantilism, and dwarfism, a clinical report of two cases with autopsy in one case, 206
- EAR**
 - middle—See *Otitis Media*.
- ECZEMA**
 - nummular eczema in children, report of six cases, 157
- ELECTROCARDIOGRAPHY**
 - electrocardiographic changes in poliomyelitis, analysis of 150 cases, 225
- EMOTIONS**
 - emotional problems of maladjustment in children with reading difficulties, 114
- EMPHYSEMA**
 - congenital lobar emphysema, 172
- ENCEPHALITIS**
 - isolation of the virus of herpes simplex from the brain of a patient with acute encephalitis, 218
- ENCEPHALOMYELITIS**
 - granulomatous encephalomyelitis in infancy, 148
- ENDOCARDIUM**
 - endocardial fibroelastosis, 93
 - endocardial sclerosis, review of changing concepts with report of six cases, 92
- EOSINOPHILIA**
 - chronic eosinophilia due to visceral larva migrans, report of three cases, 162
- EPILEPSY**
 - heredity of epilepsy as told by relatives and twins, 109
- ERYTHROBLASTOPENIA**
 - acute erythroblastopenia in sickle-cell anemia and infectious mononucleosis, 164
- ERYTHROBLASTOSIS FETALIS**
 - controlled trials of the treatment of hemolytic disease of the newborn, 200
 - hemolytic disease of the newborn due to maternal iso-immunization with A-antigen, 201
 - latent hemolytic disease of the newborn infant, variable quantitative relationship between the amount of maternal Rh antibodies and the extent of damage to the Rh-positive infant, 201
 - method of measuring the severity of a series of cases of hemolytic disease of the newborn, 162
- ERYTHROCYTES**
 - acanthrocytosis, a genetic erythrocyte malformation, 195
 - familial erythroid multinuclearity, 166
 - pathogenesis of spherocytes and leptocytes (target cells), 195
 - red blood diameters in megaloblastic anemia in children needing continuous treatment, 165
- ERYTHROPHAGOCYTOSIS**
 - in vitro* erythrophagocytosis in acquired hemolytic anemia, 194
- ESCHERICHIA COLI**
 - Bact. coli* in infantile diarrhea, 213
 - epidemic infantile diarrhea associated with *Escherichia coli* 111, B₄, 147
 - experiments on feeding adult volunteers with *Escherichia coli*, 111, B₄, a coliform organism associated with infant diarrhea, 212
 - on the occurrence of *Escherichia coli* 55: B₅:6 and *E. coli* 111: B₄ in fecal samples from infants with diarrhea disease and in a control material, 213
 - study on etiology, epidemiology and antibiotic therapy of infantile diarrhea, with particular reference to certain serotypes of *Escherichia coli*, 98
- FERROUS SULFATE**
 - ferrous sulfate poisoning report of a fatal case, 146
- FETUS**
 - effects of streptomycin upon the human fetus, 45
 - hemoglobins of the human fetus and infant, electrophoretic and spectroscopic differentiation of adult and fetal types, 168

FIBROPLASIA

- aqueous dispersions of vitamins A and D in premature infants, studies with reference to rickets and retrolental fibroplasia, 61

FOLIC ACID ANTAGONISTS

- folic acid antagonists in acute leukemia in childhood, 121*
- resistance to corticotropin, cortisone and folic acid antagonists in leukemia, 161

GAIT

abnormalities:

- gait analysis of the hemiplegic patient, force plate and stroboscopic studies, 15*

GARGOYLISM

- gargoylism, forme fruste, 58

GASTRODUODENAL ULCER

- peptic ulcer in childhood, report of six cases, 49

GERMAN MEASLES—See Rubella.

GIARDIASIS

- hepatosplenomegaly as a consequence of lambliaosis of the bile duct, 209

GLOMERULONEPHRITIS—See Nephritis.

GROWTH

- relation between socioeconomic status and body size in boys seven to ten years of age, 214

HEARING

- report on the hearing survey in public schools of Pennsylvania, 207

HEART DISEASE

- glycogen storage disease of the heart, report of two cases in siblings with chemical and pathologic studies, 43

congenital:

- congenital methemoglobinemia simulating tricuspid atresia, 192
- endocardial fibroelastosis, 93
- endocardial sclerosis, review of changing concepts with report of six cases, 92
- left coronary artery from the pulmonary artery, three cases, one with cardiac tamponade, 171

HEAT

- behavioural responses of infants to heat stress, 154

HEMAGGLUTINATION TEST

- evaluation of the hemagglutination test for tuberculosis, 108

HEMIPLEGIA

- gait analysis of the hemiplegic patient, force plate and stroboscopic studies, 15*

HEMOGLOBIN

- hemoglobins of the human fetus and infant, electrophoretic and spectroscopic differentiation of adult and fetal types, 168
- new inherited abnormality of hemoglobin and its interaction with sickle cell hemoglobin, 166
- ratio of sickle cell anemia hemoglobin to normal hemoglobin in sicklelema, 92
- studies on abnormal hemoglobins, persistence of fetal hemoglobin in the erythrocytes of normal children, 160

HEMORRHAGIC DISEASE

- hemorrhagic diathesis due to Ac-globulin deficiency, 191
- hemorrhagic disease in an infant due to deficiency of a previously undescribed clotting factor, 188

HEPATITIS

- homologous serum hepatitis and measles prophylaxis, a report to the Medical Research Council, 101

HEPATOLENTICULAR DEGENERATION

- amino-aciduria and copper metabolism in hepatolenticular degeneration, 155

HERPANGINA

- herpangina, clinical studies of specific infectious disease, 99

HERPES SIMPLEX

- fatal herpes simplex infection in a newborn infant, 53, 219

virus:

- isolation of the virus of herpes simplex from the brain of a patient with acute encephalitis, 218

HYDROPHTHALMOS

- organic aciduria, decreased renal ammonia production, hydrophthalmos and mental retardation, 211

HYMENOLEPIS—See Tape worm.

HYPERTHYROIDISM

- treatment of hyperthyroidism with radioactive iodine, 46

IDIOCY

- congenital idiocy, sexual infantilism, and dwarfism, a clinical report of two cases with autopsy in one case, 206

INCLUSION DISEASE

- new laboratory aid in the clinical diagnosis of inclusion disease of infancy, 232

INFANT FEEDING

- infant feeding with and without added carbohydrate, 99
- self-regulatory feeding in a premature nursery, 235
- vitamin B complex as a supplement in infant feeding, 215

INFANT MORTALITY

- pathogenesis and relationship of the hyaline-like pulmonary membrane to premature neonatal mortality, 112

INJECTIONS—See also Inoculations.

- association of parenteral injections with poliomyelitis, 150

INOCULATIONS

- relation between recent injections and paralytic poliomyelitis in children, 149
- relationship between inoculations and poliomyelitis, 150

INTELLIGENCE

- effects of apnea neonatorum on intellectual development, 147

INTESTINES

diases:

- management of bowel dysfunctions in children, 50

IODINE

- radioactive—See Radioactive Isotopes.

IRON—See Ferrous Sulfate.

JAUNDICE

- familial jaundice in the newborn associated with hepatosteatorrhea, 155

KERNICTERUS

- kernicterus, clinical residuals and prevention, 76*

KIDNEYS

- diseases*—See also *Nephritis; Nephrosis*.

diseases:

- thrombosis of the renal veins with massive hemorrhagic infarction of the kidneys in childhood, 50

function:

- organic aciduria, decreased renal ammonia production, hydrophthalmos, and mental retardation, 211

LAMBLIASIS—See *Giardiasis*.

LARVA MIGRANS

- chronic eosinophilia due to visceral larva migrans, report of three cases, 162

LEPTOCYTES

- pathogenesis of spherocytes and leptocytes (target cells), 195

LEUKEMIA

- latent hemolytic syndrome in leukemia with splenomegaly, 167

acute:

- folic acid antagonists in acute leukemia in childhood, 121*
- resistance to corticotropin, cortisone and folic acid antagonists in leukemia, 161

aleukemic:

- idiopathic aplastic anemia in children, its early differentiation from aleukemic leukemia by bone marrow aspiration, 40

treatment:

- effect of cortisone and ACTH in leukemia, 193
- use of adrenocorticotrophic hormone and cortisone in the treatment of leukemia and leukosarcoma, 87

LIVER

- diseases*—See also *Hepatitis*.

- familial jaundice of the newborn associated with hepatosteatorrhea, 155
- fatty degeneration of the liver with galactosemia, 231

LUNGS

- pathogenesis and relationship of the hyaline-like pulmonary membrane to premature neonatal mortality, 112
- pulmonary hyaline membranes in newborn infants, 234

cysts:

- origin of lung cysts in childhood, 172

LYMPHADENITIS

- effect of cortisone in streptococcal lymphadenitis and pneumonia, 171

LYMPHOGRANULOMA VENEREUM

- isolated cervical lymphogranuloma venereum in a child, 220

MALFORMATIONS

- congenital malformations of the central nervous system, data on sixty-nine pairs of twins, 110

MASTOIDITIS

- penicillin treatment of acute mastoiditis in children, 208

MEASLES

- hematologic diagnosis of measles, 54

prophylaxis:

- homologous serum hepatitis and measles prophylaxis, a report to the Medical Research Council, 101

MELENA

- melena in the newborn infant, 211

MEMBRANE

- pulmonary*—See *Lungs*.

MENINGOCOCCUS

- recent trends in meningococcal disease, 220

MENINGITIS—See also *Meningococcus*.

pneumococcal:

- treatment of pneumococcal meningitis with large doses of penicillin, 203

syphilitic:

- rare case of acute congenital syphilitic meningitis, 55

treatment:

- chloramphenicol in the treatment of meningococcal meningitis, 44
- reaction to intrathecal streptomycin, 57

tuberculous:

- diagnostic difficulties and possibilities in tuberculous meningitis, 57
- four year experience in the treatment of tuberculous meningitis, 229

- neurosurgical methods in the treatment of tuberculous meningitis with a note on some unusual manifestations of the disease, 107

- pathways of tuberculous meningitis, with particular reference to modification in pathology following treatment with streptomycin, 94

- report of the patients suffering from tuberculous meningitis, treated with streptomycin in the Netherlands during 1947, 229

- studies of the cerebrospinal fluid circulation in tuberculous meningitis in children, the use of penicillin as a tracer substance, 56

MENTAL DEFICIENCY

- organic aciduria, decreased renal ammonia production, hydrophthalmos, and mental retardation, 211

MERCURY

poisoning:

- mercury nephrosis in young children with special reference to teething powders containing mercury, 206
- mercury and pink disease, 205
- mercury poisoning as a cause of acrodynia, 206
- subacute mercury poisoning (acrodynia) caused by protiodide of mercury, 205

METHEMOGLOBINEMIA

- congenital methemoglobinemia simulating tricuspid atresia, 192

MILK

- cow's milk allergy in infants, 52

MONONUCLEOSIS

infectious:

- acute erythroblastopenia in sickle-cell anemia and infectious mononucleosis, 164

MOTH BALLS—See *Naphthalene*.

MOTOR LEARNING

- physiology of motor learning as applied to the treatment of the cerebral palsied, 5*

MULTIPLE SCLEROSIS

- longitudinal study of multiple sclerosis by quantitative evaluation of disability, 82*

MUSCULAR DYSTROPHY

- inheritance of childhood progressive muscular dystrophy in 33 kindreds, 59

NAPHTHALENE

- acute hemolytic anemia due to ingestion of naphthalene moth balls, 88

NASOPHARYNX

- irradiation of nasopharynx in children with infectious asthma, 231

NEPHRITIS

- observations on blood pressure in children following an acute glomerulonephritis, 202
- pyogenic infections of skin, etiologic factor in acute glomerulonephritis of children, 51

NEPHROSIS

- lower nephron nephrosis in asphyxia neonatorum, 61
- mercury nephrosis in young children with special reference to teething powders containing mercury, 206

NERVOUS SYSTEM

diseases:

- quantitative aspects of the neurological examination as a means of evaluating improvement in chronic disease of the nervous system, 82*

malformations:

- congenital malformations of the central nervous system, data on sixty-nine pairs of twins, 110

NEWBORN—See also *Prematurity*.

- familial jaundice of the newborn associated with hepatosteatorrhea, 155
- fatal herpes simplex infection in a newborn infant, 53, 219

hemolytic disease—See *Erythroblastosis Fetalis*.

- infections due to penicillin-resistant staphylococci in young infants, 60
- lower nephron nephrosis in asphyxia neonatorum, 61
- melena in the newborn infant, 211
- neonatal rupture of the stomach, 173
- passive immunity to vaccinia in newborns, placental transmission of antibodies, 234
- pulmonary hyaline membranes in newborn infants, 234

NURSERY SCHOOLS

- cerebral palsy nursery schools, 27*

OTITIS MEDIA

- case of otitis media tuberculosa after oral administration of BCG, 229

PANCREAS

- selective pancreatic deficiency, absent amylase, diminished trypsin, and normal lipase, 209

fibrosis:

- antithrombin titer in cystic fibrosis of the pancreas, a preliminary report, 190
- heredity of fibrosis of the pancreas, possible mutation rate of the gene, 208

PAPILLEDEMA

- papilledema in poliomyelitis, 224

PARALYSIS

spastic:

- surgery of upper extremity in spastic paralysis, 139*

tick—See *Tick Paralysis*.

PEDIATRIC BOOKSHELF—See *Book Reviews*.

PENICILLIN

- effect of prolonged use of penicillin tooth powder on the penicillin resistance of microorganisms, 145
- penicillin treatment of acute mastoiditis in children, 208
- present status of penicillin prophylaxis of rheumatic fever, 227
- purulent pericarditis treated conservatively with penicillin, 202
- studies of the cerebrospinal fluid circulation in tuberculous meningitis in children, the use of penicillin as a tracer substance, 56
- treatment of pneumococcal meningitis with large doses of penicillin, 203

PEPTIC ULCER—See *Gastrointestinal Ulcer*.

PERICARDITIS

- purulent pericarditis treated conservatively with penicillin, 202

PHARYNGITIS

- vesicular pharyngitis, its relationship to the Coxsackie group of viruses, 170

PINK DISEASE—See *Acrolydia*.

PINWORM

- terramycin HCl in the treatment of human pinworm infections, 48

PLAY THERAPY

- situational play therapy with normal children, 115

PLEUROPNEUMONIA

- Bernholm disease, 215

PNEUMONIA

mononuclear:

- mononuclear pneumonia in sudden death or rapidly fatal disease in infants, 170

streptococcal:

- effect of cortisone in streptococcal lymphadenitis and pneumonia, 171

POISONING—See also *Mercury poisoning*.

- accidental poisoning in children, 204
- poisonings common in children, 45

POLIOMYELITIS

- association of parenteral injections with poliomyelitis, 150
- effects of cortisone and adrenocorticotrophic hormone on poliomyelitis and other virus infections, 151
- electrocardiographic changes in poliomyelitis, analysis of 150 cases, 225
- observations on the neurological changes in anterior poliomyelitis and their implications in treatment, 102
- poliomyelitis following tonsillectomy, report of 6 cases, 222

- relation between recent injections and paralytic poliomyelitis in children, 149
- relationship between inoculations and poliomyelitis, 150
- bulbar:**
 - hypoventilation syndrome in bulbar poliomyelitis, 104
- complications:**
 - acute dilatation of the stomach as a late complication of poliomyelitis, 223
 - popilledema in poliomyelitis, 224
- epidemics:**
 - observations on the 1950 poliomyelitis epidemic, 105
- virus:**
 - immune responses in human volunteers upon oral administration of a rodent-adapted strain of poliomyelitis virus, 152
 - recovery of virus from regional lymph nodes of fatal human cases of poliomyelitis, 54
 - second attack of paralytic poliomyelitis in human beings in relation to immunity, virus types and virulence, with report of two cases, and four other individuals in Baltimore, 1944, infected with virus of the Leon type, 223
 - studies on entry and egress of poliomyelitic infection, atraumatic oral entry, distribution of lesions and virus during the incubation period, with notes on asymptomatic poliomyelitis, 224
 - studies on poliomyelitis in Ontario, further observations on the recovery of Coxsackie viruses from cases of clinical poliomyelitis, 102
- virus:**
 - transmission of poliomyelitis virus, analysis of differing interpretations and concepts, practical implications, 221
- PORPHYRIA**
 - photosensitive or congenital porphyria with hemolytic anemia, clinical and experimental studies before and after splenectomy, 42
- PREMATURITY**
 - aqueous dispersions of vitamins A and D in premature infants, studies with reference to rickets and retrolental fibroplasia, 61
 - pathogenesis and relationship of the hyaline-like pulmonary membrane to premature neonatal mortality, 112
 - premature infants in later life, study of intelligence and personality of 22 premature infants at ages 8 to 19 years, 235
 - self-regulating feeding in a premature nursery, 235
- PSYCHIATRY**
 - child psychiatry and pediatrics, 113
- PUBERTY**
 - physical changes associated with adolescence in boys, 51
- precocious:**
 - use of testicular biopsies in the differential diagnosis of precocious puberty, 175
- PURPURA**
 - thrombocytopenic:**
 - corticotropin (ACTH) and cortisone in idiopathic thrombocytopenic purpura, 197
 - idiopathic thrombocytopenic purpura in childhood, 198
- RADIATION**
 - radiation effect on the unborn embryo immediately after conception, 173
- RADIOACTIVE ISOTOPES**
 - treatment of hyperthyroidism with radioactive iodine, 46
- READING**
 - emotional problems of maladjustment in children with reading difficulties, 114
- RED CELLS**—See *Erythrocytes*.
- Ru FACTOR**—See *Erythroblastosis Fetalis*.
- RHEUMATIC FEVER**
 - epidemic of rheumatic fever in Japan and South Korea, 152
- prophylaxis:**
 - present status of penicillin prophylaxis of rheumatic fever, 227
- RICKETS**
 - aqueous dispersions of vitamins A and D in premature infants, studies with reference to rickets and retrolental fibroplasia, 61
 - vitamin D and citrate metabolism, studies on rachitic infants, 215
- RINGWORM**
 - Trichophyton tonsurans ringworm, a new public health problem, 155
- RUBELLA**
 - prophylaxis of German measles with immune serum globulin, 219
- SALMONELLA TYPHI-MURIUM**
 - septicemia due to Salmonella typhimurium, a second epidemic, effect of Chloromycetin, 225
- SCHOOL CHILDREN**
 - problem of success and failure in the school age child, 116
 - report on the hearing survey in the public schools of Pennsylvania, 207
- SICKLEMIA**—See *Anemia, sickle cell*.
- SINUSES**
 - dermal:**
 - intracranial complications of congenital dermal sinuses, 233
- SINUSITIS**
 - maxillary:**
 - chronic maxillary sinusitis in children, 147
- SKIN**
 - infections:**
 - pyogenic infections of the skin, etiologic factor in acute glomerulonephritis of children, 51
 - sinuses**—See *Sinuses, dermal*.
- SMALLPOX**—See *Variola Minor; Vaccination*.
- SPHEROCYTES**
 - pathogenesis of spherocytes and leptocytes (target cells), 195
- SPLEEN**
 - disturbances of the spleen, 179*

STAPHYLOCOCCI

- infections due to penicillin-resistant staphylococci in young infants, 60

STOMACH

dilatation:

- acute dilatation of the stomach as a late complication of poliomyelitis, 223

rupture:

- neonatal rupture of the stomach, 173

STREPTOCOCCI

- aureomycin in the treatment of beta hemolytic streptococcal infections, 202

STREPTOMYCIN

- effects of streptomycin upon the human fetus, 45
- pathology of tuberculous meningitis, with particular reference to modification in pathology following treatment with streptomycin, 94
- reaction to intrathecal streptomycin, 57
- relative absorption of salts of streptomycin and dihydrostreptomycin after oral administration, 44
- report of the patients suffering from tuberculous meningitis, treated with streptomycin in the Netherlands during 1947, 229

TAENIA—See *Tape worm*.

TAPEWORM

- treatment of *T. saginata* and *H. nana* infestations with atabrine, 48

TARGET CELLS—See *Leptocytes*.

TERRAMYCIN

- terramycin HCl in the treatment of human pinworm infections, 48

TESTES

- use of testicular biopsies in the differential diagnosis of precocious puberty, 175

THROAT

diseases:

- herpangina, clinical studies of specific infectious disease, 99

THYMUS GLAND

- weight of the thymus in children 0-2 years of age, 176

TICK PARALYSIS

- tick paralysis on the Atlantic seaboard, study of incidence during poliomyelitis season with report of a case and review of published cases, 150

TONSILLECTOMY

- poliomyelitis following tonsillectomy, report of 6 cases, 222

TOXOPLASMOSIS

- toxoplasmosis in the Netherlands, 230

TRICOCOPHALUS TRICHIURUS—See *Whipworm*.

TRICHOPHYTON

- Trichophyton tonsurans ringworm, a new public health problem, 155

TUBERCULOSIS

- frequency and time of excretion of tubercle bacilli in primary and subprimary forms of pulmonary tuberculosis, 228

- tuberculosis attack and death rates of household associates, the influence of age, sex, race, and relationship, 153

diagnosis:

- evaluation of the hemagglutination test for tuberculosis, 108

- meningitis—See *Meningitis, tuberculous*.

TUMORS

- retroperitoneal tumors in infants and children, 173

TWINS—See also *Births, multiple*.

- congenital malformations of the central nervous system, data on sixty-nine pairs of twins, 110

- heredity of epilepsy as told by relatives and twins, 109

TYPHOID FEVER

treatment:

- treatment of typhoid fever, combined therapy with cortisone and chloramphenicol, 55

URTICARIA

- urticaria pigmentosa, 159

VACCINATION

- passive immunity to vaccinia in newborns, placental transmission of antibodies, 234

VARIOLA MINOR

- variola minor, 226

VIRUSES—See also *Coxsackie Viruses*.

Herpes Simplex, virus; Poliomyelitis, virus.

- effects of cortisone and adrenocorticotrophic hormone on poliomyelitis and other virus infections, 151

VITAMIN A

- aqueous dispersions of vitamins A and D in premature infants, studies with reference to rickets and retrolental fibroplasia, 61

VITAMIN B

- vitamin B complex as a supplement in infant feeding, 215

VITAMIN D

- aqueous dispersions of vitamins A and D in premature infants, studies with reference to rickets and retrolental fibroplasia, 61

- vitamin D and citrate metabolism, studies on rachitic infants, 215

WEBER-CHRISTIAN SYNDROME

- chronic panniculitis with leucopenia (Weber-Christian syndrome), 230

WHIPWORM

- clinical observations on *Tricocephalus trichiurus* (whipworm) infestation in children, 210
